

PRESSURE TANKS

High Quality Inside...And Out!

Applications

The Red Lion RL series of pre-charged diaphragm well tanks are ideal for maintaining the water pressure in a residential water pump system, when the pump is not running.

5 Reasons to Choose Red Lion

- Controlled action double diaphragm superior to "Bladder" tank designs
- Condensation reducing design
- Appliance-like paint finish
- Stainless steel port diffuser
- All welded water system connection

Check our Red Lion equivalents to select manufacturer's "rated volume"

Red Lion	Rated Volume
RL20	43 gal.
RL33	82 gal.
RL44	120 gal.
RL81	244 gal.
RL119	315 gal.
